

CITY OF SEATTLE

Help us find locations for the City of Seattle's Sidewalk Bike Racks !

We would like your help with finding places to install them where they will be most useful, particularly in Delridge, South Park, Georgetown, and Southeast Seattle.

CITY OF SEATTLE

700 4th Avenue
Seattle, WA 98104

The Bicycle Spot Improvement Program installs bicycle racks in neighborhood business districts to encourage bicycling for short trips and errands. The racks provide safe and convenient bicycle parking. Racks are installed at the request of citizens and business or property owners or managers. Racks remain the property of Seattle Department of Transportation (SDOT).

We can install racks in the public right-of-way, but not on private property. Installation would likely be in late 2012 or early 2013 .

SDOT assumes responsibility for the racks but not for bicycles parked at them.
